

myVRM Scheduling and Work Flow Automation Software

SCHEDULE | LAUNCH | MONITOR | MANAGE | REPORT

myVRM simplifies the scheduling of resources, people and technology as well as minimizes the labor associated with these tasks by automating many of the associated processes to include automated audio and video call launch.

It manages hot-desks, huddle rooms, meeting rooms and videoconference-enabled rooms as well as the technology associated with a room such as video, audio and web. Additionally, it has a robust reporting and analytics capability. myVRM also has modules that support the scheduling of AV resources, parking, facility services, vehicles, badging, catering and personnel.

Key Features

- **Schedules all types of resources (with auto-launch)**—Hot-Desks/Hoteling, Huddle Rooms, Conference Rooms; Desktop, VMRs and Web; AV Inventory, Catering, Facilities, Badging, Parking, Vehicle Fleet; Access Control/Badging, Field Personnel Resources

- **Delivers enhanced reporting and analytics**—21 Pre-Defined Reports and customized reporting capability; CDR reporting, Trending; Provides details of the time and resource usage; Identifies between what was booked and what took place

Qualifying questions

Identifying Scheduling Issues

- Are you having scheduling challenges for video meetings and conference rooms?
- How long does it take to set up a meeting/event? What is the process?
- Are you capturing the proper metrics on your utilization of these resources?
- Do you find value in automating the scheduling process and automatically launching video and audio calls
- Are you using Outlook, IBM notes or Google Calendar? (We can integrate with all of them as well as a web interface to access our system.)
- Do you need to support multivendor environments using Polycom, Cisco, Vidyo, LifeSize and/or Avaya/Radvision? (We auto-launch with all of them)
- Are there rooms that require approval from someone before use?
- Are charge-backs for room usage required?
- Do you spend too much time searching for available conference rooms/resources?
- Do you need to coordinate multiple locations in multiple time zones?
- Do you need to request facilities set up, equipment delivery, catering, or videoconference support?
